# WORLD TEXTILE FORUM

For an Inclusive Textile Value Chain

9th/10th September 2019 in Zurich

## « Digitally Sustainable »

### **How digitalisation & sustainability will impact production and sourcing of textiles & garments.**

The World Textile Forum (an event in cooperation with the Sustainable Textile School – STS) is the place where leading textile & retail players will discuss how to transform their businesses in order to adapt to the challenges of sustainability and new/digital technologies.

We bring leading managers of the industry together to lead this transformation.

Make sure you are part of it!
